MANITOBA POLLED SHORTHORN BREEDERS

TENTH ANNIVERSARY ANNUAL

Opportunity Sale and Show

OF THE

"BREED WITH THE GREATEST FUTURE"

BRANDON WINTER FAIR BUILDINGS

Monday, November 18, 1968

Show at 10:00 a.m.

Sale at 1:00 p.m.

CENTRAL STANDARD TIME

POLLED AND PROFITABLE

This female was the top selling female in our last year's sale. She is an indication of the calibre of cattle we have been selling in this sale, as she went on this year to be Grand Champion at Winnipeg's Red River, Regina, Yorkton and Melfort Exhibitions and Reserve Grand Champion at the Saskatoon Exhibition.

Yes, she is POLLED, and is the PROFITABLE kind as she weighed 1450 pounds at two years of age. She is a Polled Shorthorn female and it is profitable to breed Polled Shorthorn females like her because more and more commercial producers are demanding the size, length and smoothness of Polled Shorthorns.

These commercial producers know Polled Shorthorns sire healthy calves, calves that gain faster, bringing a higher return on investment. The Polled Shorthorn also dehornes the calves, making them easier to handle and easier to sell.

Polled Shorthorns are a modern breed, with calves that will rapidly convert grass or grain into high quality beef. . . .giving producers and feeders a faster gaining and a more profitable calf. That's why there's a growing demand for purebred Polled Shorthorns. And why it is profitable to breed them.

The tremendous record that Manitoba and Saskatchewan Polled Shorthorns have achieved on Performance Test against all breeds demonstrating their ability to grow and put on pounds of beef, have put them in demand in the great ranching country of Western United States and Canada, like has never been known before in the Shorthorn Breed.

Visit your neighbor who raises Polled Shorthorns or write the Manitoba Polled Shorthorn Association for sources of supply. Breed for a rapidly expanding bull market. . . .Breed Polled Shorthorns.

GENERAL INFORMATION

TIME AND LOCATION:

The show will be held at 10 a.m., and the sale starts at 1 p.m. C.S.T., at the Brandon Winter Fair Buildings, 10th Street and Victoria Avenue on Monday, November 18h, 1968. Brandon is situated on the Trans-Canada Highway No. 1, and and No. 10, 40 miles north of the U.S. border.

ACCOMMODATION:

There are many excellent hotels and motels in Brandon. If you require accommodation contact either of the Sale Managers for your requirements, they will be glad to look after all details for you.

TRANSPORTATION:

Brandon is on the mainline of the C.N.R. and the C.P.R. and is on the Trans-Canada Highway with excellent bus service. Winnipeg has excellent air service and is only 135 miles of Brandon. If you require transportation to Brandon from Winnipeg call either one of the Sale Managers.

REPRESENTATIVES:

Bill Poole, The Westerner, 310 Somerset Building, Regina, Sask.
Ab. Stoltz, Secretary, Canadian Shorthorn Association, Gummer Building, Guelph, Ontario.
Wilf Davis, Beef Cattle Fieldman, Manitoba Government, Dauphin, Man.
Norman Hogg, President, Canadian Shorthorn Association, Uxbridge, Ontario.
Shorthorn World Representative, 16 South Locust St., Aurora, Illinois.

Those wishing to send mail bids can send to any of the above. Wilf Davis will be at the Prince Edward Hotel, Brandon, Man., on the night of November 17th, 1968, and will accept mail bids or provide any information re the sale required.

INSURANCE:

Insurance will be available for all animals at the sale.

JUDGE:

We have selected this year as our Judge of the show Mr. Duane Rocker, Walton, Nebraska. He comes from a family who have been successfully breeding Polled Shorthorns for years. His father this year received the high recognition as a "Builder of the Breed." Duane has built his own good herd and purchased the 1966 Polled Congress Champion Bull at Hutchison, Kansas, for one of his herd sires.

Veterinarian, DR. HUGH BEST, Brandon, Man.

J. R. (JOCK) BLACKLOCK, Auctioneer, Saskatoon, Sask.

TERMS AND CONDITIONS

- 1—Each animal will be sold to the highest bidder.
- 2—The auctioneer in charge will settle any disputes as to bids and his decision on such matters shall be final.
- 3—Terms of sale are cash.
- 4—Each animal will be at purchaser's risk as soon as sold, but will not be delivered until settlement has been made. Every precaution will be taken, however, they will be at purchaser's risk of loss or injury.
- 5—A certificate of registration will transferred to the buyer for each animal sold, including calves at foot.
- 6—Any changes from breeding dates in the catalogue will be announced from auction box and these will take precedence.
- 7—All persons who attend the sale, do so at their own risk, and neither the owner nor sale managers assumes any liability, legal or otherwise, for any accidents which may occur, or the behaviour of the animals.
- 8—Reliable truckers will be available and we will make arrangements for shipping your cattle, at your request.
- 9—All animals originate from T.B. and Bangs free areas, and are eligible to go anywhere in Canada. Every co-operation will be given to hold animals for the necessary tests to be eligible for export to U.S. A Federal veterinarian will be in attendance and will gladly discuss all health standards with you.
- 10—All animals guaranteed breeders. A bull should not be allowed to serve when under fourteen months of age or be allowed to run with the herd when under twenty months of age. In the event of an animal proving to be a non-breeder or of a female breaking service date, if a satisfactory settlement cannot be reached with the consignor, the purchaser must file protest and proof in writing to the Secretary of the Manitoba Polled Club; such protest must be accompanied by a deposit of \$25.00. If on inspection by a veterinarian appointed by the Manitoba Polled Club the protest is allowed and the animal declared a non-breeder the \$25.00 deposit will be refunded to the purchaser, and the consignor will be required to pay costs in connection with the veterinarian inspection re the animal. If, however, the animal proves to be satisfactory and is declared sound by the veterinarian, the buyer must assume the cost of the veterinarian's inspection. If the protest is allowed the non-breeding animal again becomes the property of the seller who shall:
Replace the animal immediately with one of approximately equal age, quality and breeding acceptable to the buyer. If the seller does not have the above animal available he must refund 90% of the purchase price of the animal to the purchaser. Return transportation charges to be paid by the seller, no charge for feed or maintenance shall be made by the purchaser.

PRESIDENT'S COMMENTS

The Polled Shorthorn Breeders are again offering an excellent group of breeding cattle in their annual fall sale. Many of the cattle will not be highly fitted, but will be sold in working condition.

This offering should interest commercial breeders.

The Polled Shorthorn Breeders are a group of cattlemen with the same goal in mind, that is to produce practical, profitable cattle — the kind that will work improvement in either commercial or purebred herds . . . cattle with stretch and growth, not too much waste fat, the kind that will hang up a side of beef to suit supermarket and housewife.

Many of these men have been working toward this goal for 10-15 years. Evidence of their success can be seen in the records they have established in the Bull Testing Stations in Western Canada and United States.

It has been a pleasure working with the Polled Shorthorn Club. I highly recommend the animals offered in this Sale.

—HARVEY FULTON, President

A DECADE OF PROGRESS

Congratulations are very much in order to the Polled Shorthorn Breeders who have initiated and carried on this very important Show and Sale that is now celebrating a Decade of Progress.

Under the present organization of the Canadian Shorthorn Association the provincial clubs play a most important part in breed promotion and the parent organization is pleased to co-operate with the clubs as much as possible. The breeders participating in this event have shown outstanding enthusiasm and leadership, and have set an example that other provincial clubs across Canada could consider.

The Polled Shorthorns offered are presented by outstanding Breeders and should make a contribution to the herds that are fortunate enough to obtain them.

The future of Beef Shorthorns is bright. Cattlemen at all levels are taking a close look at the resurgence of our breed so it is important that we provide the necessary leadership to earn their continued confidence.

NORMAN D. HOGG,

President, Canadian Shorthorn Association

SALE MANAGERS' FOREWORD

It's our pleasure to again welcome you to our tenth annual Manitoba Polled Shorthorn Club Sale.

We have again selected all these cattle on the farms, the rewarding thing to us is we are finding more good Polled Shorthorn cattle on everyone's farm. This is therefore helping us a great deal to make the consignment more balanced and uniform as everyone is contributing some good cattle.

It takes a lot of time and driving selecting these cattle but it is very rewarding to us to see how much breeding stock and basic cow herds have improved in all these herds in the last five years particularly. Everyone of these breeders is putting a great deal of effort into their herd bull selecting and are striving very earnestly to produce good, big, useful cattle that are polled.

Every one of these breeders are enthusiastic about the challenge of today to breed these big, useful Polled Shorthorn cattle and their enthusiasm is kept high when they see the great market that awaits these cattle today in the vast ranching country of the west.

The achievements of these herds at the major shows, performance testing stations and their great ranch bull demand they have created have all become too lengthy to state here; but let us assure you these men are not through earning their achievements in making this breed of cattle greater.

You will find our consignment this year is a group of useful, honest cattle that can't help but make money for your investment in them.

Be sure to be at our banquet and get together the night before and enjoy the fellowship of Polled Shorthorn Breeders from other areas.

If we can assist you in any way with information about the sale, reservations etc., contact us.

POLLED SHORTHORNS . . .

. . . the breed in the lead!

Working with Polled Shorthorns and Polled Shorthorn Breeders is one of my enjoyable tasks. The enthusiasm of everyone, together with their downright ambition to improve, makes every event a thrill and a challenge.

This series of Fall Shows and Sales have been very instrumental in building up this enthusiasm. Now we have groups going together for spring and summer sales, shows and picnic-field days that are second to none. I know that this forging ahead of recent times applies to Shorthorns as well as Polled Shorthorns, but the Polled people have been crowding them all the way.

Polled Shorthorn breeders have now reached a crucial position and face a challenge. Time was when all they had to have was a polled head and they sold. With the increase in number of polled breeders and the numbers of Polled Shorthorn cattle, this polled factor alone will no longer sell your cattle for good prices. Size, muscling, quality and breed character must be equal to or exceed any other breed or class of cattle. There are Polled Shorthorns being offered in this sale that are of the right kind and will improve a breeder's position — the price might seem high but some cattle are worth more than others. One cannot stay in the cattle breeding business any longer with mediocre animals. Take advantage of this sale to purchase the right kind with which to stay in the lead.

I want to again congratulate the Manitoba Polled Shorthorn Breeders, their executive committee, all the contributors and the buyers for making this an important and exciting livestock event and I want to thank you for giving me the privilege of being associated with this Show and Sale, dedicated as it is to keeping Polled Shorthorns in the lead!

—J. R. (JOCK) BLACKLOCK.

BANQUET—SUNDAY, NOV. 17th at 7:00 o'clock

North Hill Motel

Plan to attend

LUNCH SERVED THROUGHOUT THE SHOW
AND SALE, MONDAY, NOV. 18th,
BY SHORTHORN LASSIES

CLASS I—BULLS BORN PREVIOUS TO DEC. 1, 1966

Consignor: LORNE EDMONDSON, Oakville, Man.

LOT 1—Bromelee Perfect 15th, X413216

Male

Tattoo UFP 3V — Red — Born April 2, 1964 — Bred by Lorne Edmondson

Thomas Perfect 60N X

Carona Perfect X

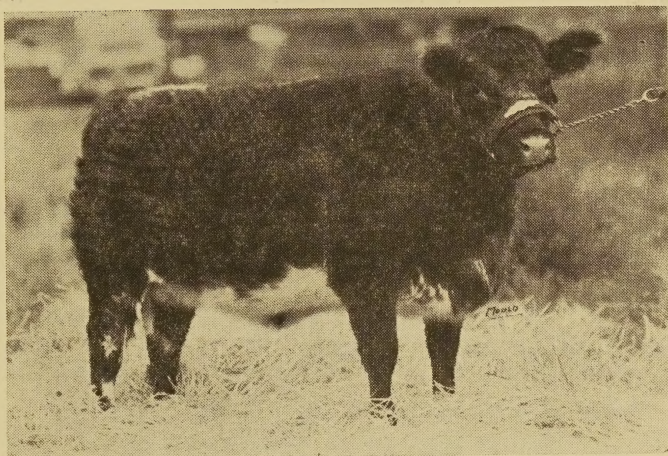

Shirley Blythesome 6th

Sultan's Leader X

Oakville Red S.L. Doris Y

Oakville Red Doris 2nd X

This is one of Thomas Perfect 60N's best sons. He weighed 1960 lbs. in March and has run with the cows all summer. His mother is a twin that has long growthy calves every year — have over 40 calves by 15th born in 1968 and not a poor one.

THIS HEIFER SOLD TO HART FARMS IN TEXAS AT OUR
JUNE SALE — Sired by the same sire as Lot 2.

Consignor: KINNABER STOCK FARM (GORDON BROS.) Souris, Man.

LOT 2—D'N Eden Commander 18x, X420593

---	---

We purchased this bull from Morton Bros. for our 1968 two-year-old show bull. He consistently stood near the top of the class for us and was made the Reserve Grand Champion at the 1968 Saskatoon Exhibition. He is a big, sound, free moving, solid red, deep fleshed bull that will weigh between 1800 and 1900 pounds sale day. He is sired by the Polled Congress Champion H.D. Commanders Hero x, who did a great breeding job for the Mortons and Batemans. We sold a half sister to this bull to Texas and have two more in our herd that are among our best. This bull can help a lot of herds, he is much like his sire, if he breeds like him he is a cheap investment even if the price is high.

CLASS 2—BULLS BORN DEC. 1, 1966 - MAY 31, 1967

Consignor: IRWIN TUCKER, Margaret, Man.

LOT 3—NAPOLEON'S PRIDE, X-421759

This bull is a double grandson of the 2450-lb. Coronet Max Leader and his dam is out of one of the good producing Carona Perfect cows in the Thomas herd. He is a modern type bull, well muscled, trim and growthy.

TPS CORONET 27th — Sire of Glenhorn Leader 11th

BUTTE LEE FLORA 3rd

Top selling female in the 1967 Manitoba Polled Sale at \$1,075, going to Clarence Lindgren, Estevan, Sask. We retained show privileges on her for the 1968 shows. She was Grand Champion female at the Red River, Regina, Yorkton and Melfort Exhibitions and Reserve Grand Champion at Saskatoon. She calved a red heifer calf by Clipper King of U.S.A. the night she was grand champion at Regina Exhibition.

Everyone likes to think he has a great breeding sire, we're pretty particular at Kinnaber as a sire must leave us big, long, growthy, useful cattle. We've had a few sires that pleased us, some never met the test, but the only ones to ever come near to T.P.S. Coronet Leader 21st X are his own sons.

Leader 21st X has proven to be one of the greatest breeding bulls of all times, not only has he left consistently and continually a great set of females, his sons are heading more leading herds in the west than sons of any other sire.

If you really appreciate seeing big, long, useful, smooth cattle with lots of size, durability and the ability to get out and get their job done. You owe it to yourself to visit the herds using 21st sons. Take for example, our neighbor breeders, the Thomas and Drapers — they are pretty particular about their herd bulls. The leading bulls in both these herds are 21st sons we have bred, and what a great pair of stock bulls they are.

We are sure Leader 21st X influence can help you as it has us and so many others.

J. H. Kirton

This is a typy young cow, whose dam is a big red cow by a son of C.F. Collynie 11th. Cooper Farms later re-bought this bull from Harvey Wilson. Will have a calf at foot by T.P.S. Coronet Galaxy 3rd or heavy in calf by sale day. T.P.S. Coronet Galaxy is a paternal brother to T.P.S. Coronet Unlimited, the highest classified AAA bull in the U.S. Top cattlemen have called him the greatest living bull of the Shorthorn - Polled Shorthorn industry.

KINNABER LEADER 5th X — Photo at 8 months

This is the big 100% dehorning son of TPS Coronet Leader
21st X that continues to amaze all practical cattlemen
and ranchers of all breeds.

MIGHTY MR. MODERN — "The Weight Lifter"

He Weighed 2,260 POUNDS 3 weeks before 3rd birthday

His mother is a Great Polled Female. If the five best cows in Canada
were put together, she would be one of them.

His first three daughters averaged \$1,000.00 in our June Sale.
We now have his first complete crop of calves and what
a crop! They are a'l Polled and Modern.

Pleasant Dawn Farms

HI WAY FRONTIER

A 100% dehornner, owned jointly with Harvey Fulton, Birtle

Our first polled females, purchased in 1942, had three generations of polled dams and four generations of polled sires, on their pedigrees. Dams traced back to imported females from the S. Campbell Herd.

Sires used have been big growthy bulls, producing the kind that have always been popular at sales.

At the 1967 Manitoba Provincial Spring Bull Sale, our two entries were both class winners; first prize pair, and produced the Junior and Grand Champion Bull, against strong horned competition. We were first and third highest sellers. Both were half brothers to 10 yearling bulls sold to Mount Haggin Ranch, Montana, in 1967.

At the Manitoba Beef Cattle Indexing Centre at Douglas, our 1965-67 group had the highest Shorthorn weight per day of age, indexing 104. Rate of gain was 105. The 1967-68 group had the highest average indexing: Rate of gain 105; weight per day of age, 105. Two gained 3.20 pounds per day, on the 140 day test.

All these bulls were sired by Hi Way Frontier.

Pleasant Dawn Riverhurst 2nd, sired by Hi Way Royal Oak, was champion bull and top selling animal in the 1967 Annual Polled Sale.

Our females in this sale are all sired by Hi Way Frontier. Three are out of dams sired by Hi Way Royal Oak, a big rugged 2,200-lb. bull, that sired many top bulls for us. They sell just in pasture condition.

They are bred to Pleasant Dawn Approval X, weight at 36 months, 2,140 pounds, and Kenmar President X, weight at 15 months 1,185 pounds.

Pasture bred June 2 to Oct. 1, 1968; sire Pleasant Dawn Approval X-416489

This heifer sells just out of pasture. She is the first female offered for sale, sired by "Frontier", a 100% dehorning bull; dam is sired by Hiway Royal Oak x; grand dam by Hiway Hero x; great grand dam by Torgerson's Collynie 2nd (100% dehorner). Dams are all home bred from our first polled females purchased in 1942, that were so strong in polled breeding. Service sire "PD Approval" weighed 2140 pounds at three years. Sired by PD Seal 2nd, reserve champion and top seller at our 1964 Polled Sale. Dam is "Apsi Lady Gretchena" raised by Wayne Carr, Iowa. This cow has consistently produced top quality Polled Progency.

These herds represent some of the best Shorthorn herds and large ranches to be found . . . you owe it to yourself to visit these herds and see the great job these Kinnaber bulls are doing to help them breed big, useful cattle, the practical operator demands today.

If the six best Leader 21stX herd bulls from these herds were lined up together we don't know where you'd ever see six greater bulls by one sire.

Kinnaber Polled Shorthorns

 Elysee Lady May 2nd

Bred March 15, 1968; sire Thomas Leader 2Y, X-421425, C. S. Thomas & Son Galaxy breeding is sticking out all over on this heifer. Hewellen Headliner was bred by Reford Gardhouse; sired by Aldie Cavalcade, imported from Finlay MacGillivray, Scotland. Cavalcade was a paternal brother to Aldie Mainliner; Mathers of Illinois, imported and later sold a half share at \$17,000.00. Elysee Lady May 2nd, a soggy heavy cow was bred by Henry Washington; sired by Killearn Monarch 124th. This big typy roan heifer carrying a long service date to a top son of TPS Coronet Max Leader is a gem. The prodogy of the Galaxy-Leader cross has proven top bracket.

A growthy daughter of Pleasant Dawn Seal 2nd and a Hiway President cow — a combination that is hard to beat for growth and size.

FACTS

- ★ All time top selling Polled Bull at the Canadian International Sale was sold by Rothbury at \$4,000 to Gloridale and Petlo Farms in Ontario.
- ★ Rothbury showed more champions than any other herd in Canada in 1967.
- ★ Rothbury just showed the Grand Champion Female, Rothbury Augusta B 3rd, at the Canadian National Exhibition in Toronto.
- ★ Where else in America will you find two stock Bulls like Kinnaber Leader 5th and TPS Coronet Keystone.
- ★ Our herd now numbers 250 head so the selection is wide.

This is the type of heifer that needs no high fit to bring out quality — the quality is already built in. She has the well balanced conformation of her dam from the Elizabeth cow family, the first foundation females of the herd. TPS Coronet Galaxy 3rd has come into his own here at Hewellen as a breeder's herd sire; a big red bull with massive feet and legs to carry him over our rolling pastures. The heifer sells open.
